PROJECTS

Movie Librarian | https://github.com/broganneagle | https://tinyurl.com/y3xrdres
- A user may create an account, use the search functionality to look up any movie they want, and add it to a wishlist or a library list. The user can also choose which media format they own the movie on (DVD, Blu-Ray, or VOD), and that is reflected in their library list. The user can also sort for which movies they own on which format.
- **Tools/languages Used:** HTML, CSS, JavaScript, Query, React, Node, MySQL
- **API's Used:** OMDB

To Cook or Not To Cook | https://github.com/broganneagle | https://tinyurl.com/y62feykm
- This responsive app helps users search for foods they are craving based on an ingredient or dish and brings up the top 5 search results in the respective category. You can search for any food or ingredient and choose either "search recipes" or "search restaurants."
- **Tools/languages Used:** HTML, CSS, JavaScript, Query, Bootstrap, API calls using AJAX
- **API's Used:** Yelp!, Spoonacular, Geolocation

Cool Places | https://github.com/broganneagle | https://tinyurl.com/y2ekxg8k
- An application where people can share cool places they've found, mark it on a map and leave comments about their experience. Non-uploaders will have the ability to leave reviews, as well as freely view all added places.
- **Tools/languages Used:** HTML, CSS, JavaScript, Query, Bootstrap, Node, JawsDB MySQL
- **API's Used:** Mapbox
